

WHAT WOULD THE MERGER BETWEEN  
**CONSTELLATION ENERGY  
& ELECTRICITE DE FRANCE**  
MEAN FOR MARYLAND?

Costly \$15-billion nuclear reactor

\$33-million CEO bailout

Decades of needlessly higher utility rates

Sleazy business practices

WE SAY  
**NO DEAL!**  
FOR CONSTELLATION AND EDF

Call Doug Nazarian, chairman of the Maryland Public Service Commission, at (410) 767-8073 and tell him "No Deal."

**A RAW DEAL**

Maryland deserves a clean, safe and affordable energy future. Unfortunately, Constellation Energy and the French energy company EDF are trying to strong-arm regulators into approving a risky deal that could lead to higher rates, an expensive new nuclear reactor, and less control over our state's energy future.

TELL THE PUBLIC SERVICE COMMISSION TO  
**VOTE "NO DEAL"**  
FOR CONSTELLATION AND EDF.
