

## STATEMENT OF SUPPORT

By signing on to this statement of support, our organization expresses its opposition to the construction of a new nuclear reactor in Maryland for the following reasons:

- **A new nuclear reactor increases the risk of an accident or terrorist attack. An accident or attack at the plant could harm over a million residents in Washington DC, Maryland and Virginia.**
- **A new nuclear reactor kills more aquatic life and increases the thermal pollution discharged into the Chesapeake Bay.**
- **There is no long-term solution to storing the highly toxic radioactive waste that the plant generates.**
- **Taxpayer subsidies should not support dangerous forms of energy like nuclear power.**
- **Investing in energy efficiency and renewable sources of energy such as wind and solar are cleaner, safer and more affordable alternatives to a building a nuclear reactor.**

Name of Organization: \_\_\_\_\_

Contact Person(s): \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip Code: \_\_\_\_\_

Telephone: \_\_\_\_\_

E-mail: \_\_\_\_\_

In addition to adding our name to the list of organizations that support the campaign, we will: (check all that apply)

- Inform our members about the dangers of the proposed nuclear reactor by including a blurb about the campaign in our newsletter.
- Invite a coalition representative to make a presentation to our members about the campaign.
- Author or sign letters to the editor to local newspapers in opposition to the proposed nuclear reactor.
- Work with local elected officials to pass a resolution against the proposed nuclear reactor.
- Lobby members of the General Assembly to prevent the construction of a new nuclear reactor.
- Send a representative to coalition planning meetings.

**Please return completed Statement of Support to:**
